DATA AND ANALYTICS

Who we are

McGregor Boyall is an established recruitment consultancy with offices in London, Manchester, Edinburgh, Glasgow and globally in Dubai and Singapore. Since our inception in 1987 we have built an unrivalled reputation for helping organisations recruit the very best talent to ensure that they realise their business and operational objectives. Our main focus is to identify, attract and deliver high-quality professionals who can support and enhance their new employer's corporate objectives. We have a proven track record of recruiting across a wide range of sectors as demonstrated through our specialisms.

What we do in Data & Analytics

Our Data & Analytics team specialises in various aspects of the full data warehousing life cycle. With over seven years of experience working solely on BI & Data Warehousing technologies, our Consultants distinguish themselves in the market by fully understanding the technical requirements of our clients and providing them with suitable candidates in a timely manner.

Having a good knowledge of their very niche market means that they are able to successfully qualify candidates and only forward the most applicable resumes.

Working in such a specialist area also means that our Consultants have a large network of contacts within this space and therefore recruit for the following positions:

BI Consultant | BI Project Manager / Architect | BI Programme Manager | Big Data | Engineer / Developer | Data / Business Analyst

Recent Successes

Role	Company / Industry
GDPR Business Analyst	Global Automotive Brand
SalesForce Project Manager	Global Financial Services Company
Business Data Analyst	International Investment Bank
